It's easy to use and you don't need to use much so it lasts longer. I've only been using the product since April and my goal is to prevent further wrinkles and its working. My mom and grandmother had lots of wrinkles and I would like to prevent them if I can.
Barbara K.

I like these products MUCH better than any other I have tried. My skin already looks and feels better and it's been less than a week!
Wanda H.

Nouveau does not make my face red or scaly, and seems to be helping lighten my sun marks.
Nancy D.

When my friend asked me to use it I thought it's just another product. When I saw what a difference it had made on her I decided to try it. I'm glad I did. Most products made my face oily or dry and it always felt like I plastic under my make-up...not Nouveau! I can see the difference and I get lots of compliments. People ask me what have I done and I just tell them that I am using this product.
Alma L.

I noticed a great improvement in the area around my eyes.
Carol B.

I have seen an improvement in the pore texture (especially on my nose) and my skin has a more even tone all over. I am soon to be 58 and am very happy with my skin. Nouveau puts everything in a very neat regimen and gives wonderful results besides.
Melinda F.

I decided to try Nouveau because of the simplicity and the ingredients. I feel that these products are superior to most other products that I have tried. My skin is softer, I have fewer lines, some tightening has occurred and sun blotches have faded.
Laura P.

I am so glad my best friend cared enough to send me such a special birthday gift! After using the Nouveau System, I don't believe I will ever go back to my old product. My face feels smoother and I adore the face wash. I have used the product for 3 months and really can see a younger looking skin tone. Thanks for such a nice product!
Sharon L.

I used to use Elizabeth Arden I like the cleanser much better makes my skin feel so much tighter and cleaner. The serum is awesome and the moisturizer is just right for me. My skin tone seems a lot more even and smooth. I even believe my pores are smaller making me look younger. I am usually pretty picky about products I use and I love everything about Nouveau.
Jamie S.

I wanted something to help with the wrinkles around my eyes, short of a facelift. I have seen GREAT results with Nouveau!!
Wanda W.

My skin in smoother and clearer, with smaller pores. The deep "grooves" along my upper lips have diminished; some have even disappeared. The lines from my nose to the corner of my mouth are shallower, and my "waddle" doesn't waggle like it used to do!
Annette C.

NOUVEAU

I find the Nouveau System quick and easy. There are not numerous bottles to deal with such as Eye Cream, Lip cream, face cream, etc. It's all in one! I am most satisfied with the cleanser, serum and facial cream. I have even seen wonderful results on my hands. It has eliminated age spots and has made them extremely soft and less chapped.

Marilyn C.

I feel my skin looks younger and smoother - therefore, I radiate youth and vitality. No other product made a difference in the overall appearance of my skin. I like Nouveau so much that I have given it to my mom and a friend as gifts!

Michele R.

I wanted something to decrease the lines around my eyes and nose. Compared to other products I have tried, Nouveau is much superior! I have been using Nouveau for 4 months and already see a difference. Lines are much diminished around my eyes. My skin feels much smoother and makes me look younger.

Karol K.

My facial skin was tighter and appeared less saggy. I could control my minimal adult acne better.

Julie S.

So far, Nouveau is heads and tails above the other products that I have tried. I break out before my periods and it was very painful. I haven't had that occur since using the product.

Jeanna L.

Nouveau removes my make up easily; fine lines and fine wrinkles are quite smaller. I like the way it feels.

Kelley B.

I cannot believe the great results that continue to happen when using Nouveau. Each month I can see a difference and I am thrilled. It gives better results than Dr Perricone's and it is much more affordable. My face had a lot of sun damage and it continues to exfoliate almost weekly. The new skin looks much smoother, has a calmer appearance with what I call the Nouveau glow.

Barbara W.

I decided to try Nouveau because I wanted to find products with alpha-lipoic acid and DMAE that were less expensive than the Perricone products. Compared to the results I've seen from other product, I feel that my pore size is reduced and my skin no longer feels dry.

Melissa T.

I wanted an easy system to work with; I also wanted a product that reversed the signs of aging. The price was also right, so I decided to try the Nouveau System. Compared to other products that I have tried - It works!!! My skin has become firmer. I still have some sun spots by they are fading. All in all, I think the products are great and I am hoping that you might increase your line to include makeup!

Peggy S.

I was using a line that had natural products called "Nutrimetics." The company has quality products and has been around (started in Australia) around 30 years ago. Nouveau's quality is just as good if not better. Their products produce good results, but you have to use more products to obtain that result (eye cream, scrub, masque, etc.)

Lesley S.

I'd been looking for a skin product that made my skin feel good and didn't cause blemishes. I also wanted to help my friend with her new business so I figured I would give Nouveau a try. Compared to other products, I find Nouveau simple and easy to use. Don't have irritation of the skin. My skin feels soft and smooth.

Linda H.

NOUVEAU

Nouveau is better than I thought it would be because you're always skeptical about things like this with so many products on the market today claiming to do miracles. I have seen a definite improvement in how my skin looks and feels.

Tracy R.

I like Nouveau much better than other products I've tried. My mother was an Oil of Olay person, and I took up the practice. But Nouveau helped to put me on a daily regimen that I wasn't following with Olay, and my skin is much healthier and softer.

Maria S.

I have tried a number of expensive products with too many steps. It was often confusing and time consuming. I like Nouveau better than others I have tried. I feel my skin is softer and clearer than before. It feels good. I introduced my daughter-in-law to your products and she was featured in your recent newsletter.

Helen S.

I have used Estee Lauder products for years...day cream, night cream, wrinkle cream, etc. Nouveau is easier to use. My skin feels and looks healthier and with less wrinkles.

Barbara R.

People actually think that I sleep at night now. The bags under my eyes are a lot less noticeable. I love the simplicity of three products versus six or seven.

Cynthia B.

Nouveau went far beyond my expectations! I was having a real problem with cystic acne from having PCOS and already had scarring from healed cysts, but new ones just kept coming up as well. Not only did my cystic acne clear up, the scars are fading and I don't have the little forehead wrinkles anymore. I can actually go out without wearing makeup and feel comfortable now. It's better than anything else I've ever tried. I've seen significantly clearer skin, healthier looking skin, old scars fading, wrinkles fading or disappearing completely.

Christi S.

I was ready for a complete program, and Nouveau sounded good. So far I am pleased. My skin is smooth, has good color, perhaps some disappearance of fine wrinkles around the eyes.

Jan R.

I participated in the "test" of your new Body line. I have lost weight and the "ripples" in my skin are slowly becoming less evident.

Pat R.

What I notice most is that my make-up goes on smoothly whereas with Mary Kay I had to work at getting it blended. The other day a client of mine came into my office that I had not seen for maybe 6 months. The first thing she said was, "I want to know why you look younger than the last time I saw you. Are you on some reverse hormone or something?" Wow, what a nice thing to hear! My mom says my skin has never looked better! I participated in the testing of your BODY by NOUVEAU products and I lost one inch off of each thigh. My husband said he thought my thighs looked smaller when I confessed that I had been using this magic cream.

Melissa C.

My wrinkles have become less apparent and the softness of my skin feels great. Also the crow's feet around my eyes have faded.

Arlene L.

NOUVEAU

I am about to turn 40 and want to continue to have good skin and noticed all around me women my age were looking older - I try to take care of my skin and your products so far have been a plus for me. Compared to other products that I have tried, Nouveau is easier to use and pleasant smelling with no side affects. I have experienced smoother, tighter skin in two weeks (or less).
Donna K.

I have used many other products and yours is the best! I recently had a short hospital stay. While there, as I was being prepared for surgery, a couple of nurses said my skin was so nice. Later, I was taken to another room for another procedure and a different nurse remarked about how nice my skin looked.
Frances D.

If it keeps working for me like it has been I will tell Everybody about it. I told Ms. Granik that I'll start selling it because it's the 1st time I found a product worth saying anything about. I'm in my late 50's. Have tried a lot of stuff and never, never found anything as wonderful to use or to recommend to anyone else. I have a very bad reaction most anything that I put on my face. I was very surprised that I didn't break out. The redness I usually have on my nose is just about gone after using nouveau for 2 ½ weeks. Thanks so much. No words could explain how great I feel about Nouveau.
Marie L.

In only a few days, my forehead became normal. I experimented, once my forehead was normal, by not using the Nouveau regimen for a few days. My forehead has remained normal, whereas with other products, if you did not use them for one day, your problem returned. It seems to me that Nouveau actually improves the quality of your skin, not just mask it.
Alan S.

I can really see a difference in how my skin feels and looks. I was not using it on my neck (don't know why) and my daughter looked at me one day and said, "You are not using nouveau on your neck are you....I can really tell!" Since then I have been and there is a big difference in the smoothness and the color is uniform which it wasn't before.
Darlene P.

Since starting to use the Nouveau System, my most dramatic result is the way my skin feels and how a dry "scaly" area near my lip, which had been "burned" by the dermatologist once but returned again, has disappeared.
Jo H.

I am on the "outside" of middle age, and this product sounded too good to be true! But, I gave it a try and must admit that Nouveau has lived up to its word. I'm a very satisfied "user". There is really no comparison to other products that I have used...it's easy to use...not time consuming...cost effective. My skin is smoother and tighter with improved elasticity, pores are smaller....I feel like I look younger!!
Nancy M.

I had a complete face lift 10 years ago. Since then I had noticed a wrinkle line on my earlobes. This happens sometimes, especially on women that have a full earlobe. (I am a retired nurse-anesthetist that worked for plastic surgeons for the majority of my career.) I started putting the serum on the earlobes each morning and night. I have noticed that the "line" is softening and smoothing out. I am so excited. I will be 60 in October, and believe it or not, I am looking forward to celebrating that milestone in my life! I have been using a product that was very expensive, but was not giving me the results that I was looking for. I am very happy to say that since I have been using Nouveau products, I have noticed a radical change in the appearance and tone of my skin. With Nouveau, I got quicker results than with other products. Also, your products are not expensive and go a long way. Oh, the backs of my hands look more youthful also.
Anita H.

NOUVEAU

I LOVE the simplicity and my face felt better within the first week. A noticeable result was the main difference between Nouveau and other products I have tried. Three steps only and the same in a.m. and p.m. was huge.

Debbie H.

I was impressed by the information given about the products that didn't promise the moon like several other sites had, but was realistic about the results I could get. I also like the fact that along with all this great information the prices wouldn't cut into my children's college fund!! I have only been using the products since July 30, 2003, but I have seen an improvement in the creases, dark circles and puffiness around my eyes, the texture of my skin has never been softer and the pregnancy mask that had covered almost half of my forehead has begun to fade. My "baby" is 10 yrs old and this is the first product I have found that has worked on the mask. My pores have become clearer and smaller in some areas and the sunspots on the backs of my hands are fading.

Diane S.

I decided to give Nouveau a try because It worked for my friend and I was out of the Estee Lauder product I used. Compared to other products that I've tried the price is right, it's easy to use and I can see a difference. My pores are very large and I noticed a huge difference in 4 weeks. It also works great on my 12 year olds new "puberty outbreaks". He told me the pimples on his nose "just crumbled off."

Gina S.
