

CELL PREPARATION CLEANSING GEL

ITEM # 100200

Key Ingredients: Salicylic Acid, Retinol, Vitamin E, Panthenol and Botanicals

USES

When Nouveau's Cell Preparation Cleansing Gel is used in conjunction with Nouveau's Cell Rejuvenation Serum and Cell A.M./P.M. Hydration Crème, they form a complete skin wellness system that cleanses, stimulates and protects the skin for long-term rejuvenation that results in a more youthful appearance.

The ideal cleanser for men and women of all ages and skin types. Use Nouveau's Cell Preparation Cleansing Gel to:

- Remove impurities, dirt and makeup
- Exfoliate the skin
- Control acne and blemishes
- Remedy sallow, dull-looking skin
- Prepare the skin to receive advanced treatment products

PRODUCT DESCRIPTION

Nouveau's Cell Preparation Cleansing Gel is a "smart" cleanser! The formulation is a super-cocktail of ingredients that first cleanse and purify your skin and then detect and interact with your skin's specific sebum (oil) level. If there is no sebum (dry skin) bonding humectants/moisturizers add a sebum substitute. If there is excess sebum (oily skin) the sebum is removed. If there is a combination of the two (combination skin) humectants/moisturizes add a sebum substitute where it is dry, and sebum is removed where it is oily. Smart and Simple. Because of this revolutionary formulation it works for ALL skin types.

Great for men, women and teens.

APPLICATION

Facial Cleansing: Dispense cleanser (nickel size) into the palm of your hand. Lather with warm water and gently massage onto face and neck. Rinse well and pat dry. Allow the skin to dry thoroughly before applying serum.

Body Cleansing: Dispense cleanser (quarter size) onto a clean washcloth or body sponge. Lather with warm water and gently massage entire body. Rinse well, towel dry.

Shaving: Dispense cleanser (nickel size) into the palm of your hand. Lather with a small amount of warm water onto shaving surface. Prevents ingrown hairs.

ACTIVE INGREDIENT: SALICYLIC ACID 2%

OTHER INGREDIENTS:
